Fall 2018 Newsletter

MESSAGE FROM THE HEAD OF THE SCHOOL OF CIVIL AND ENVIRONMENTAL ENGINEERING

So much has happened since the last school newsletter in June 2018 that we decided we needed to get out a new one. There is a lot to talk about. In the interest of keeping the newsletter short, the items are brief but have hyperlinks to web sites with more information.

If you have items to suggest for our next newsletter, please email them to me.

A handwritten signature in black ink that reads 'Norb Delatte'.

Engineering North Move Update

We are excited that after decades in Engineering South, the School of Civil and Environmental Engineering is going to move to a renovated 2nd floor of Engineering North. The renovations will take place during the 2018-2019 Academic Year, with move in starting in about June 2019. While OSU is funding the bulk of the renovation work, we will need to raise approximately \$600,000 to cover finish upgrades and new furniture. We are about a third of the way there. The goal is to exceed the recent renovations for the 4th and 5th floors of Engineering North for the School of Chemical Engineering and the Division of Technology. There are naming opportunities for common spaces and faculty offices. Those are shown in the floor plan on the next page.

We are pleased to announce the following sponsorships:

- Red Rock Faculty Office – Kristi Bumpas '03, '12, Red Rock Consulting, LLC
- Garver OSU Employees Flexible Seminar Room – coordinated by Jenny Sallee '96, '04, Garver
- King Family Student Commons – Charlie King '50 to also honor sons Charles King '74 and John King '79, '81
- Red Rock Faculty Office – Kristi Bumpas '03, '12, Red Rock Consulting, LLC
- Drs. Kerry & Roberta Havner Visitor Area – Kerry Havner '55, '56, '59
- Ronald R. White, P.E., S.E. Office – coordinated by Chad Grinsteiner '96, '97 and Denise Hale '95
- Tom Ratzki Survey Equipment Room – Tom Ratzki '79

Want to make a gift before the end of the calendar year? For more information please contact Jill Johnson at jjohnson@osugiving.com.

CIVIL & ENVIRONMENTAL ENGINEERING

 at jjohnson@OSUgiving.com or 405.385.0733.

Charlie King Family Touring the Project

The Charlie King Family had a chance to tour the project during Homecoming Weekend. As you can see the second floor is gutted and construction is well under way. Want to set up a tour? Contact me or Jill.

Want to learn the secret to controlling concrete?

Tyler Ley has designed a 14-video, 3.5-hour course in concrete mix design that satisfies the American Concrete Institute's 211 standard. "Understanding the basics of concrete is the secret to controlling it," Ley says.
